

Aleh Pauliukovich

Systems administrator · automation and AI

pauliukovichaleh@gmail.com · gitcloud.pl · Warsaw, Poland · remote work

PROFILE

Over four years in systems and network administration, in companies and multi-site environments. Today I combine classic administration with automation and AI.

I own the full cycle: from diagnosis and design, through implementation, to operations and documentation.

EXPERIENCE

System Administrator since 2026

international manufacturing company

- Microsoft 365, Entra ID and Google Workspace: identities, licenses, permissions
- Configuration as code: Terraform, Ansible, CI/CD in GitHub Actions

IT Administrator 2026

telecommunications provider (ISP)

- OLT/PON access network, subscriber DHCP and DNS, virtualization, VPN
- Operations platform built from scratch: monitoring, AI alerts, 100+ scripts in one library

IT Administrator 2023-2026

IT services, multi-branch environment

- Windows Server and Active Directory, Microsoft 365 and Intune, Linux and Docker
- Cisco and Fortigate networks, VPN, monitoring with Grafana and Zabbix

IT Support Specialist 2022-2023

on-site deployments for business clients

- Rack infrastructure, network devices and POS systems
- Support together with an English-speaking team
